

PLATINUM METALS REVIEW

*A quarterly survey of research on the platinum metals and of
developments in their applications in industry*

VOL. 1

APRIL 1957

NO. 2

Contents

Platinum Catalysts in Petroleum Refining	38
The Platinum Metals in Glass	44
Separation of Hydrogen Isotopes	49
Fume Elimination in Enamelling Ovens	50
The Beginnings of Chemical Engineering	51
Oxidation and Volatilisation of Platinum at High Temperature	55
Arc Erosion of Electrical Contacts	57
An Economical Resistance Type Controller for Platinum-Wound Furnaces	58
Reference Data: Physical Properties of the Platinum Metals	61
Abstracts	62
New Patents	68
